Whatever It Takes

[Nate Sallie](#)

Who was I to try to live without you?
Thinking I could do things my own way
Lord, I know that I should never doubt you
I get so lost and lonely when I strayNow it's time to surrender to you
I'm a man who believes, it's you that I needWhatever it takes, that's what I'll do
I'd give anything to get back to you
I know I was wrong
And I've made some mistakes
But I'm gonna do whatever it takes
Yeah, whatever it takesIn a world of darkness and temptation
Only you can give me eyes to see
Father You're my strength and my salvation
Show me now who I was made to beI will follow anywhere that you lead
For it's your will not mine
I'm gonna prove it this timeWhatever it takes, that's what I'll do
I'd give anything to get back to you
I know I was wrong
I've made some mistakes
But I'm gonna do whatever it takes
Whatever it takesI'm standin' here 'cause I've got nothing to lose
I lost it all when I walked away from you
I swear this time around, I won't let you downWhatever it takes, that's what I'll do
I'd give anything to get back to you
I know that You will forgive my mistakes
So I'm gonna do whatever it takesWhatever it takes, that's what I'll do
(Thats what I'll do)
I'd give anything to get back to you
(To you, to you)
I know I was wrong
I've made some mistakes
But I'm gonna do whatever it takes
Whatever it takesWhatever it takes, that's what I'll do
(Thats what I'll do)
I'd give anything to get back to you
(To you, to you)
I know I was wrong
I've made some mistakes
But I'm gonna do whatever it takes
Whatever it takesAhahahaha, ohohoho, ahaha
