Road To The Sun

Peter Frampton

And I've been lightin' fire
Eye is sobbing so weak
Life's caught up with me
I am too tired to run
My motivation's yawning
The light is never dawning
And yet for this I'm longing
[Incomprehensible] black all I've become
If things started too late
And what I'm demonstrating
Then I won't need to pull back
To a safety zone
I suppose I'm fighting
I suppose I'm blinding
I suppose I'm winding
Long way to the road to the sun
It's do or die, hi, goodbye
Dreams inside, wild ride
Road to the sun, it's a hard one
We're in nowhere to what I've done
Road to the sun, it's a hard one
Driving by I see my smoking gun
I see my smoking gun
Talkin' till I'm weary
Tryin' to change the story
The truth or reason
Never goes away
Take it easy, can I
Walk away from the lies?

Lose in desperate games that
I can't afford to play
It's do or die, hi, goodbye
Dreams inside, wild ride
Road to the sun, it's a hard one
We're in nowhere to what I've done
Road to the sun, it's a hard one
Driving by I see my smoking gun
It's do or die, hi, goodbye

Dreams inside, wild ride
Road to the sun, it's a hard one
We're in nowhere to what I've done
Road to the sun, it's a hard one
Driving by I see my smoking gun
Road to the sun, it's a hard one
We're in nowhere to what I've done
Road to the sun, it's a hard one
Driving by I see my smoking gun
Road to the sun, it's a hard one
We're in nowhere to what I've done
Road to the sun, it's a hard one
I see my smoking gun
I see my, I see my, I see my smokin' gun
I see my smokin' gun, I see my smokin' gun
You spoke too soon
I see my, I see my, I see my, I see my
It's a road to the sun, a road to the sun
I see my smokin' gun
