Make a Little Magic

Nitty Gritty Dirt Band

I don't need the same excuses
All this talk is really useless
You run for cover every time
I'm close to youDon't wanna hear about the others
There's something here we should discover
Let's make a little magic
Before the night is throughOoh, you've seen it all before
And heard the same lines
But if you're willing to take a chance
It could be all right, so fine
We'll find ourselves dancing by firelightSo don't you try to change the subject
Or try to put yourself above it
A boy could get pneumonia
Sitting next to you, that's trueA little sleep is all we're losing
It's up to us to do the choosing
Let's make a little magic
Before the night is through
Make a little magic
Before the night is throughOoh, to the blue skies where no one can reach us
May sound crazy but just hold on tight
Never has a love run deeper
Baby, my heart is true
Baby, my heart is trueA little sleep is all we're losing
It's up to us to do the choosing
Let's make a little magic
Before the night is throughLet's make a little magic
Make a little magic
Let's make a little magic
Make a little, make a little magic
Before the night is throughLet's make a little magic
Let's make a little magic
Make a little, make a little magic
Before the night is throughLet's make a little magic
Let's make a little magic
Make a little, make a little magic
Before the night is throughBefore the night is through
Before the night is through
Before the night is through
Before the night is through

Before the night is through
Before the night is through
