

# Miracle

[Rick Astley](#)

Many roads I've traveled  
And faces I've seen  
Each tells a story  
Of what might have been  
A missed golden moment  
But life still remains  
A search for the innocence  
Somehow we lost on the way  
And we all need a miracle  
That I truly believe  
Ya we all need a miracle  
I believe my miracle is you  
Now the silence that follows  
The last curtain call  
I don't know anyone  
Who has come through it all  
But you gave me direction  
A part in your cast  
No longer make believe  
Now that I know it will last  
And we all need a miracle  
That I truly believe  
Ya we all need a miracle  
And I believe my miracle  
Ya I believe my miracle  
Ya I believe my miracle is you  
And we all need a miracle  
And I believe my miracle is you  
It's you  
My miracle is you
