

# I Don't Like Anyone

## Dream

I don't like anyone but you Making sense, all downtown  
What's my problem, I don't wanna socialize  
Why don't they leave me alone Bad boys, jealous girls  
Been there, done that, I just wanna fantasize  
Starring at the ceiling thinking 'bout you  
It's a freaky feeling, what can I do I don't like anyone, the way I like you  
I don't go anywhere, if you're not there too  
It's not as if I'm hard to please  
You're the only one good enough for me Those others just won't do  
I don't like anyone but you  
Anyone but you, oh, yeah They think I'm a little obsessed  
But their sentiment doesn't telepathy  
I'm concentrating on you I want to give you everything  
But if I do, will you think the less of me  
Everybody else just wasting my time  
Baby, can't you tell, we're two of a kind I don't like anyone the way I like you  
I don't go anywhere if you're not there too  
It's not as if I'm hard to please  
You're the only one good enough for me Those others just won't do  
I don't like anyone  
(Anyone but you) (Thinking 'bout you)  
Starring at the ceiling thinking 'bout you  
(What can I do)  
It's a freaky feeling, what can I do I don't like anyone  
(Don't like anyone)  
I don't go anywhere  
I don't like anyone  
(Good enough for me, baby)  
I don't go anywhere  
(No, no, no, no) It's not as if I'm hard to please  
You're the only one good enough for me  
Those others just won't do  
I don't like anyone but you  
(But you) I don't like anyone the way I like you  
I don't go anywhere if you're not there too  
It's not as if I'm hard to please  
You're the only one good enough for me Those others just won't do  
I don't like anyone but you
