Hank

[Tattletale Saints](#)

I wanna go to Montgomery
I wanna make, make a spark and see
See if I can set myself alight and burn away
Cos something once started here
I don't care I ain't got no fear
You live and then you die in the same placeI will sing Hank Williams' songs
They must be right cos honey he ain't wrong
Jesus must have taught that boy to play
Let it soak into my blood
Then baby I can feel the love
That taught a million people how to singOne step forward, two steps back
A shift is gonna get my spirit on track
Cos I write better songs when I'm away
I won't set the woods on fire
I'll get out of this world alive
I ain't lived, so I can't die in this placeChorus
