

# Blinded By a Lie (Live At Hammersmith)

## UFO

I got the information from a friend last night  
And it looks so very different in black and white  
I was "part of the second party", that was me  
Signed away my life, really couldn't see\*Blinded by, blinded by a lie  
Blinded by, blinded by a lieI know it's just the price you pay  
I know you're nothing\* repeat  
Now you listen closely, don't you go away  
There's a cut of something, in what I have to say  
You keep the full deck from me, "mr. percent"  
Through the legal jungle, who's the one that's bent?\* repeat  
I know it's just the price you pay  
I know you've nothin' to say  
And oh boy every dog has it's day  
I know you'll be the one to payAnd now I see that I was  
\* repeat and fade
