Warbird

[Annihilator](#)

War, the name of the game
Take you down to the wire
There's gonna be hell to pay
Gonna set your world on fireBombs, blowin' it up
The order, annihilation
This is the wayx we'll fuck you up
Welcome to your devastation[CHORUS]_____
Fly, fly with the warbird
Die, die by the warbird [x2]
_____Fire, give it all you got
We're gonna make this fuckers burn
Raining death from high above
Way past the point of no returnRush, unleash the power
You'll never see the coming attack
At three thousand miles an hour
You'll never feel the god-damned impact[REPEAT CHORUS]Perish in a firey hell
No turning back
You'll never live, no story to tell
Get ready, second attackBoom. They begin to strike
The ultimate supremacy
Never before have they seen the like
It's the ultimate insanity[REPEAT CHORUS]
