

# Weird

## Hilary Duff

I like the way you never sleep  
And the promises you never keep  
I like the way you say hello  
And make it sound like time to go I like the scar above your lip  
The way it let your feelings slip  
But they are never what you feel  
Oh so fake but completely real Don't you think it's weird?  
Weirder than weird  
That's what you are  
That's what you want out of me  
What I like about you  
Is what you like about me  
Don't you think it's weird? I like the rules that don't apply  
I like the good things past you by  
Standing there without a plan  
That's why you're such a happy man Don't you think it's weird?  
Weirder than weird  
That's what you are  
That's what you want out of me  
What I like about you  
Is what you like about me  
Don't you think it's Come on, two  
I wanna make some changes  
I wanna my money back  
I wanna start up again  
I wanna talk to strangers  
I wanna be with you  
But I just don't know where and when That's what you are  
That's what you want out of me  
What I like about you  
Is what you like about me Don't you think it's weird?  
Weirder than weird  
That's what you are  
That's what you want out of me  
What I like about you  
Is what you like about me  
Don't you think it's weird?
