## Huntar

I'm not waiting up  
I just cannot sleep at night  
And I know it's dark  
But it won't help me ease my mind  
If I chase these shadows  
All around an empty room  
Can I speak to these walls  
Will they tell me any truth  
And you're holding up  
I'm holding up  
We're holding up  
All those times we're making up  
Waiting up  
Breaking up  
If I let it slip,  
I'm dangerous  
So scandalous  
Just dangerous  
Would I lose my grip and give you all?  
I just wanna touch your skin  
Hear your words  
Take them in  
I dont wanna let this go  
Give it up  
Lose control  
I know this is moving fast  
Heating up  
Might not last  
I just wanna touch your skin  
Are you ...  
Where others didn't treat you right?  
Cause i know its hard  
To open another door in life  
Would it be so tough to let somebody by your side  
Are you fuelled by lust?  
So hungry to be satisfied  
And you're holding up  
I'm holding up  
We're holding up

All those times we're making up  
Waiting up  
Breaking up  
If I let it slip,  
I'm dangerous  
So scandalous  
Just dangerous  
Would I lose my grip and give you all?  
Cause I just wanna touch your skin  
Hear your words  
Take them in  
I don't wanna let this go  
Give it up  
Lose control  
I know this is moving fast  
Heating up  
Might not last  
I just wanna touch your skin  
Skin Why're you always on my mind?  
Why're you always on my mind?  
So why're you always on my mind?  
I just wanna touch your skin  
Hear your words  
Take them in  
I dont wanna let this go  
Give it up  
Lose control  
I know this is moving fast  
Heating up  
Might not last  
I just wanna touch your skin  
Cause I just wanna touch your skin  
Hear your words  
Take them in  
I dont wanna let this go  
Give it up  
Lose control  
I know this is moving fast  
Heating up  
Might not last  
I just wanna touch your skin
