

Scott's a Dork (Skacoustic)

Reel Big Fish

We like pizza but she doesn't eat the crust,
I love her and she loves everyone,
She said she likes my band but I don't even like my band,
I love her and she loves everyone,
I saw her kiss him last night, I'm sick now,
(but it's just a little cold) Scott's a dork,
When I say "I give up" it just means I am gonna try again,
She loves me and I love everyone,
I was kissin' her but she was wishin' it was him,
She loves me and I love everyone,
They told her, about you and me, she's mad now (But she'll get over it)
Scott's a dork,
You'd think that after all this time, she'd change but, she didn't.
(No no no)
