

Sell My Head

Tancred

I was taught along with math that sister was a psychopath
And everyone should know about it
Everyone should know and I did
I was taught in elementary brother was just gonna fight me
I don't really care about it
Sit inside your room with nothing I drank you up like wine
'Til my teeth were black and white
You always know just what I like
You drank me up like wine
Educated, seventeen, violated, no esteem
I don't wanna know about it
I would sell my head for nothing I drank you up like wine
'Til my teeth were black and white
You always know just what I like
You drank me up like wine
I drank you up like wine
'Til my teeth were black and white
You always know just what I like
You drank me up like wine
