## Autolux

Let's go for a ride  
Just shut your radioactive mouth  
It's time to decide  
While my heart mourns my open mind Anonymous  
With your average love  
The more you've cried  
The more you give her Just shut your radioactive mind  
It's time to decide  
While my heart mourns my open eyes  
Anonymous  
With your average love  
You had it all  
You could not give her
