In The Shadows

The White Star Orchestra

We both take the hardest punches
And collect black eyes just to prove it
Still we passed by just like strangers
And we speak just like the closest enemies
Enemies
Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far
Somehow my words rendered useless
Still I pull my lip down to my chest
Just to show you how my jaw is
Tired from waiting to say the things that you should hear
You should hear
Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far
After all we're still the same
These empty promises seem to never change
There's a smile on my face and it's 2:55 a.m.
This cramp in my wrist puts me back asleep
Till it all comes around again
With a closed fist
With a closed fist
With a closed fist
With a closed fist
Woah, in the shadows of our life
We can fall into the night unscarred
Woah, in the shadows of our life
We can never let it go this far
Woah, in the shadows of our life
We can fall into the night unscarred
