

I Know You Sleep

Bang Gang

I can't explain why you're always stuck in my mind
Step out and look into my dead eyesMy wings are broken but your head's high
I'm passing away in my own armsRun away
Disappear
In the pale nightClose your eyes
Feel the heat
From the dark side
Take a chance
Make a turn
To the flash lightI am yours
You are mine
We're in love, right?Stay with me
I know you sleep
I cannot breath
I feel your here

I need you with meI can't explain why you're always stuck in my mind
Step out and look into my dead eyes
