Not This Time

Jennifer Paige

Started seeing trouble in your eyes
Followed you around just a little while
Didn't want to believe you could do me wrong
Did her lips taste as sweet as mine
Did she fall for all your fancy linesYou run around me with another
Think that you can do betterYou said I was everything
Don't want to see you 'round here no more
But you'd tell me anything
Don't want to see you 'round here no more
Did you think I would take you back
Did you really think I'd take you back
Never take you back
Not this timeNow you say you're sorry for what you've done
That I will always be the only one
Well, you can take your sorry's to someone elseYou ran around on me with another
Thought that you could do betterNo, no, no, baby, uh, uh, uh
You said I was everything
Don't want to see you 'round here no more
But you'd tell me anything
Don't want to see you 'round here no more
Did you think I would take you back
Did you really think I'd take you back
Never take you back
Not this timeI covered you in roses
And I fell for your disguise
But it doesn't seem so pretty nowNo, no, no, baby, uh, uh, uh
You said I was everything
Don't want to see you 'round here no more
But you'd tell me anything
Don't want to see you 'round here no more
Did you think I would take you back
Did you really think I'd take you back
Never take you back
Not this timeDid you think I would take you back
