

Shadows

Au Revoir Simone

You tell me
That it's getting better
But every time that we say goodnight [goodnight goodnight] I'm haunted by your eyes
And how long they've been crying Don't tell me
About a bad reaction
Don't tell me that you plan to hide [to hide to hide]
Reasoning aside I'm moving on
I hope your coming with me
I hope your coming with me Anyone can answer their own questions
All you have to do is look inside [inside inside]
You know it inside
You know it will be alright [alright alright]
You know its alright I'm moving on
I hope your coming with me
Cause I'm not strong without you Don't blame it on your shadows
Cause I know all about you
