

Rebecca Street

Fred Eaglesmith

Well it's rainin out on Rebecca Street
And I aint doin that well
I was gonna do a whole lot better this time
That's what I told myself
And I'm waiting for the lights to change
These days they never do
And all the girls on Rebecca street
Look by you I saw Katie Kinkade
She said to say hello
And she said she was sorry
When I told her the story
She said that she didn't know Funny how she's wearing her hair these days
The same way you used to
And all the girls on Rebecca street
Look like you
And every magazine
And every mezzanine
Is starin right back at me
And everywhere I go
Everybody that I know
Every picture on TV And the light used to turn from red to green
But these days they just turn blue
And all of the girls on Rebecca street
Look like you
And all of the girls on Rebecca street
Look like you
