Faded

Psychotic Waltz

faded, faded
fell from the sky below
faded, faded
from the sky you knowcrashing through the window
fly on the wind of my soul
hover, hummingbird
UFO beautiful
beautifulmagic, electric
raining through the sky
raining emotion
how they bleed from my eyecrashing though the darkness
engraving my name on the world
hover, hummingbird
skies unimagined
skies unimagined
beautifulblind confusion in the air
but there's something there
there's something therefaded, faded
fell from the sky below
faded, faded
from the sky you knowcrashing through the mirror
fly on the wind of my soul
hover, hummingbird
UFO beautifulblinding light, winding sound
spinning grace defies the ground
beautiful
UFO, UFO beautiful
