

# Feel

## Teenage Fanclub

Don't need nowhere to go  
When my senses can peel  
Through the floor to the fields

Below me

I feel what I know  
And I know what I feel  
Illuminate what is real

And show me

Life without you

Is so cold

And moving round you

Makes me old

Send me far from myself

And the things that I see

Give me new ways to be

Remove me

Put my past on the shelf

With illusions of me

Show me new ways to see

Improve me

Life without you

Is so cold

And moving round you

Makes me old

Life without you

Is so cold

And moving round you

Makes me old

Through the night times

Wrong and right times

Take the straight line

Feel the sunshine

Through the night times

Wrong and right times

Take the straight line

Feel the sunshine

Through the night times

Wrong and right times

Take the straight line

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine

Feel the sunshine
