What I Did For Love

Peggy Lee

Everybody's heart is torn and tattered
Mine was not designed for giving up
Cause all I've ever done that really matters is what I did for loveSo got me with the wounded and the shaken
Even when I'm barely standing up.
I've tried to offer more than I have taken.
That's what I did for love
What I did for love.
I gave everything.It's amazing to see to see all that love has given me
When they sit and list the reasons I existed
I'm afraid it won't add up to very much
Cause I gathered all I had and gladly risked it
That's what I did for love
What I did for love
I gave everythingAnd it's amazing to see all that love has given me
Someday I may silently surrender
When this old heart has finally had enough
But I hope that I will always be remembered by what I did for love
Cause all I've ever done that really matters is what I did for love
Yeah it's what I did for love
Yeah yeahIt's what I did for love
It's what I did
It's what I did for love
It's what I did for love
Yeah
It's what I did for loveYeah
It's what I did for love
It's what I did for love
It's what I did for love
