# Larger Than Life

## Gov't Mule

If I concentrate
Will it just come to me
Run it by me
I'm still willing to learnMake no mistake
You'll never be allowed to come inside
Just be glad you're here
On the outside looking inIt won't take long
To get to the bottom
It won't take much
To be looking down at yourselfYou think you know something
But you don't know nothing
Everybody knows
That death is larger than lifeCaptivate yourself, you're the only one
Who can help you now
With your cartoon savior by your sideLook around the room
Do you see anyone that you recognize?
You recognize'Cause it won't take long
To get to the bottom
Won't take much
To be looking down at yourselfYou think you know something
But you don't know nothing
Everybody knows
That death is larger than life'Cause it won't take long
To get to the bottom
It won't take much
To be looking down at yourselfYou think you know something
But you don't know nothing
Everybody knows
That death is larger than life
Larger than life
