Confidence

Normal Like You

i cant find my confidence today
and i don't feel like ever waking up
you don't look so bad your self today
hear the words i say
i speak them you just run awayand i can't show
you how real
how real things could be yeah...
and i believe
that you could feel
that you could feel something whoa...when your close there's things i want to say
but i end up just not speaking at all
and if i spoke i fear you'd look the other way
a smile's not displayed
my confidence erased (Ohh...)and i cant show
you how real
how real things could be yeah...
and i believe
that you could feel
that you could feel something whoa...and i cant show
you how real
how real things could be yeah...
and i believe
that you could feel
that you could feel something whoa...
