

Realize

Bell, Book & Candle

You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize And it's gettin' dangerous
To see my love away
And it's gettin' dangerous
To wait another day You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize And it's gettin' dangerous
For me to hear you say
And it's gettin' dangerous
To see you go astray And it's killin' me enough
To keep it all away
And it's killin' me enough
To leave and not to stay You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize Hi, get your heart out
Come and make me see, oh
Hi, long time runnin' to believe in me You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
Lize, lize, lize, lize
