

# Stand By Me

[Darin](#)

I believed we would last for centuries  
Found it perfect although some did not agree  
I could not imagine why we wouldn't last  
They said we were too different and rushed much too fast  
It took one look into your eyes to know that  
I will love you endlessly  
Though everybody said, "Don't bother, you don't belong together"  
You decided to stand by me  
We proved them wrong, beat the odds together still  
I kept believing always have and always will  
I could not imagine why we wouldn't last  
I am glad we rose above and beyond, let it pass  
It took one look into your eyes to know that  
I will love you endlessly  
Though everybody said, "Don't bother, you don't belong together"  
You decided to stand by me  
Now look what we've got  
And how far we have come  
I'm so proud we're still holding on  
Staying strong  
It took one look into your eyes to know that  
I will love you endlessly  
Though everybody said, "Don't bother, you don't belong together"  
You decided to stand by me  
It took one look into your eyes to know that  
I will love you endlessly  
Though everybody said, "Don't bother, you don't belong together"  
You decided to stand by me
