

Waitin' for a Superman

Iron & Wine

I asked you a question and I didn't need you to reply
Is it getting heavy?
But then I realize, is it getting heavy
Well, I thought it was already as heavy as can be
Is it overwhelming to use a crane to crush a fly?
It's a good time for Superman to lift the sun into the sky
'Cause it's getting heavy
Well, I thought it was already as heavy as can be
Tell everybody waiting for Superman
That they should try to hold on the best they can
He hasn't dropped them, forgot them or anything
It's just too heavy for a Superman to lift
Is it getting heavy?
Well, I thought it was already as heavy as can be
