

# Not Important

## Cloud Nothings

You're so ugly  
I don't really understand  
Why you're famous  
I just know you're good in bed  
It's a problem  
That I'm trying to correct  
Do you want some?  
I can give you what's left  
You're not that important now and it will always be the same  
You're not that important now and it will always be the same

Do you forget  
That we were never good friends  
Did you forget  
Or should I tell you again  
You're too stupid  
And I'm so lazy I don't care  
About your problems  
They'll just happen again  
You're not that important now and it will always be the same  
You're not that important now and it will always be the same
