It's On

Rock Star Supernova

I feel suspended, lifeless going through the motions
You're inside, outside waiting for the cars
Desperate measures but it don't measure nothing
All the baggage left inside and nowhere left to fallAll your spaces, darkened places
Come out from it allLet it shine on, even when the day is done and all the light is gone
Let it shine on, you're running high but dark inside
What little light has left you let it shine onTalking senseless, screaming from the benches
Looking forward not to fall behind
Look through lenses, nothing ever cleanses

Your rained out visions from a cloudy mindAnd all your spaces, darkened places

Come out from it allLet it shine on, even when the day is done and all the light is gone

Let it shine on, you're running high but dark inside

What little light has left you let it shine onI don't ever want to fade away
A burned out record that I can't play
Don't let me make the same mistakes

That you have made before

Nothing changes, can't you face it after allLet it shine on, even when the day is done and all the light is gone
Let it shine on, you're running high but dark inside
What little light has left you let it shine onLet it shine on, let it shine on

Let it shine on, you're running high but dark inside What little light has left you let it shine on
