

# Brothers And Sisters

## Blur

Brothers and sisters  
Rebuild your lives  
We're all drug takers  
Give us something tonight  
A cartoon in a ketamine  
Jelly mixed with margarine  
White doves from the war machine  
Everybody moving'  
Cocaine is for murderers  
Codeine for the jurors  
Caffeine been through all of us  
Everybody horny  
Crackwhores back in town again  
Eggships sniffing benelyn  
Burning all the oil again  
Smoking makes you holy  
Textin abbreviates the brain  
Aspirin takes away the pain  
Rock on, everyone the same  
That's the way it is  
Brothers and sisters  
Rebuild your lives  
We're all drug takers  
Give us something tonight

Rohypnol like a chloroform  
Sugar from the day you are born  
Washed out like a dinosaur  
Really don't believe it  
Sticky sniffing superglue  
Sulphates keeps you in a zoo  
Monkeys turning into you  
Everybody horny  
Acid good up on the moors  
Gimpo stops you getting bored  
Beta's busy making laws  
Procaine stops you screaming  
Librium for anxiety  
Drinking is our society

Guessing out of eternity  
That's the way it is  
That's the way it is even when we're pissed  
Yeah, that's the way it is, that's the way it is  
Brothers and sisters  
Rebuild your lives  
We're all drug takers  
Give us something tonight
