

Hell Yeah!

Midnight Red

Hell yeah! Let's crash a party like we don't care! (Whoa whoa)
Hell yeah! Let's crash a party like we don't care! We rock the party, we got it locked down
Call up all your friends so we can take this town
Trip me, go all out, hit it like a leader!
Tonight we'll kick it like Beckham do
Girl, my only goal is to score with you
Then we go all out, work it like a leader! Ya know we all graduated from the school for cool.
Play it stupid, play it dumb, play 'em all like fools! (Chorus)
Hell yeah! Let's crash a party like we don't care! (Whoa whoa)
Hell yeah! Said I want it all right now and right here! (Whoa whoa)
We're gonna make your head, spin it around and round
We're gonna take you there; let's get loud!
Hell yeah! Let's crash a party like we don't care!
(This will make your head spin) It's no illusion, the baddest hand's down
Like the way you move it, how you bump and grind
Let me take control, work it like a leader!
And if you want me tonight
Go all out, hit it like a leader! Ya know we all graduated from the school for cool.
Play it stupid, play it dumb, play 'em all like fools! (Chorus)
Hell yeah! Let's crash a party like we don't care! (Whoa whoa)
Hell yeah! Said I want it all right now and right here! (Whoa whoa)
We're gonna make your head, spin it around and round
We're gonna take you there; let's get loud!
Hell yeah! Let's crash a party like we don't care!
(This will make your head spin) (Bridge)
Turn out the lights and lose yourself tonight (Touch somebody's body)
It's alright to lose yourself tonight (If you want it, want it)
And take your chance and do just what you like (Do just what you like)
And take your chance and do just what you like! (Chorus)
Hell yeah!
Hell yeah!
We're gonna make your head spin around and round
We're gonna take you there; let's get loud!
Hell yeah! Let's crash a party like we don't care!
(This will make your head spin)
