

# New York City

## Lenny Kravitz

Broadway lights and taxi cabs  
Everybody's moving fast  
Uptown, downtown, what's your thing?  
She can take what she can bring She gave me a life  
Came up through the inner city  
She raised me up and taught me to fight, yeah  
She opened my mind  
I got to the knitty gritty  
The greatest time that you'll ever find She is my heart  
I love New York City  
She's lived and died  
So many times, yeah!  
Life is always tough  
On New York City, oh lord  
But she is fine, she always survives, yeah! She's a queen that stands her ground  
Nobody can take her down  
Good times, bad times, she can swang  
And did anyone a thang She is a rock  
As we pull but she is steady  
And no one can take her freedom away, yeah  
(Can't take her freedom)  
I love her style  
Whether she is clean or dirty  
She's the greatest town that you'll ever find, yeah! She is my heart  
I love New York City  
She's lived and died  
So many times, yeah!  
Life is always tough  
On New York City, oh lord  
But she is fine, she always survives, yeah! You know she's my heart  
I really love New York City  
She's lived and died so many times  
You know life can be real tough  
On my New York City  
But she's fine, she always survives  
Yeah! She is my heart  
I love New York City  
She's lived and died  
So many times, oh yeah!

Life is always tough  
On New York City, oh lord  
But she is fine, she always survives, yeah  
She is my heart  
I love New York City  
She's lived and died  
So many times, oh yeah!  
Life is always tough  
On New York City, oh lord  
But she is fine, she always survives, oh yeah  
Let's hear it for New York CityNew York City
