Playing for Keeps

Dragpipe

Collect my thoughts that are in my way
All the time I thought I'd say
Giving back to what I've gainedIt's endless, this waiting and waiting
Holding the cure in my hands
Can't keep the hide on the marrow
Watching parades from the standsCollect my thoughts that are in my way
All the time I thought I'd say
Giving back to what I've gainedIn the circle, it all follows me
Hold the smoke and I will see
That there's nothing left for meI was living in a hole
Dug beneath the earth, tryin' to find my soul
In my unclear mind, I was living cold
Never realizing time would make me oldIt's useless to fight when you're empty
Throwing your fist with your mind
Keep all those games for your weak friends
Smiling without any spinesI am my own weakness
I am my own shit
You are just as fucked up as I am
I am just as fucked up as youI was living in a hole
Dug beneath the earth, tryin' to find my soul
In my unclear mind, I was living cold
Never realizing time would make me oldJust a fucked up kid I'll always beI am my own weakness
I am my own shit
You are just as fucked up as I am
I am just as fucked up as you
