

Golden Throne

Greenleaf

Hello from the one who wants you
Dedicate your life to get it
Just as it all along
Many folks have been forgotten
Many millions left to rot
And just rise above it all[Chorus]
Time just seems to quickly disappear
The memories get bitter by the year
Don't think too much, just go ahead and run[Verse 2]
Oblivion most will not need us
Tell the truth and don't deceive us
The trash will join the stone
Rock the cradle, burn the witches
Live and learn their inhibitions
Just push it all along[Chorus]
Time just seems to quickly disappear
The memories get bitter by the year
Don't think too much, just go ahead and run[Verse 3]
At the speed of sound
Blow in the wind, let us fly
(Fly)
The trying lights are all straight down
Go when the tides go down
Go and get that golden throne
Go and get that golden throne
Go and get that golden throne
Go get that golden throne[Chorus]
Time just seems to quickly disappear
The memories get bitter by the year
Don't think too much, just go ahead and run
