

Kitsch Object

Placebo

Just like every lichen, how you stick to me
If your luck is dying, go and plant a tree
With artistic license, always comes for free
Just like every lichen, how you stick to me
Snook your way backstage
Paris sets the rage
Coursing on your brain
So now I slip away
Just like every lichen, how you stick to me
If your luck is dying, go and plant a tree
With artistic license, always comes for free
Just like every lichen, how you stick to me
Weightless.. bare.. faithless... scared
Know that bitches face? ?
All seen better days
So quick to blow your fuse

But that's the life you choose
Just like every lichen, how you stick to me
If your luck is dying, go and plant a tree
With artistic license, always comes for free
Just like every lichen, how you stick to me
Weightless.. bare.. faithless... scared
Snook yourself backstage
Paris sets the rage
Coursing on your brain
So now I slip away
Just like every lichen, how you stick to me
If your luck is dying now, go and plant a tree
With poetic license, always comes for free
Just like every lichen, how you stick to me
Weightless.. bare.. faithless... scared
