River

Gorefest

Clouds are covering the sky
This will be my last goodbye
Broken man, broken lands
Time has come to make amendsIn this life, now filled with darkness
Struggle on, seems so useless
And I hunger for the sunThe river flows on, as life flows on
Finding it's way
Leading me there where I will stayNow fear is getting hold of me
Thinking of my destiny
The great unknown as never seen
Places where I've never beenStill my life, filled with darkness
But I see a light, makes me fearless
As I breathe and make the jumpThe river flows on, as life flows on
Finding it's way
Leading me there where I will stayThe river flows on, my life flows on
Finding my way
Going there where I will stay
