Out Of My Head

Star Industry

I can't get you out of my head
God knows I've tried
But I just can't forget
Those crazy nights
And all the things that we did
I can't get you out of my head

Maybe it was the way you talked
Maybe it was the way you laughed
Well, I don't know just what it is
But I know I want you back

I can't get you out of my head
God knows I've tried
But I just can't forget
Those crazy nights
And all the things that we did
I can't get you out of my head

Maybe it was the way you smiled
Maybe it was the way you kissed
Well, I don't know just what it is
But I know want this to last

I can't get you out of my head
God knows I've tried
But I just can't forget
Those crazy nights
And all the things that we did
I can't get you out of my head

I keep trying to sleep
But I'm lying awake
I'm thinking about the love I fuelled away
But I won't let me go and I need you to know

That I, I, I, I
Can't get you out of my head

I can't get you out of my head

God knows I've tried
But I just can't forget
You're my whole life
I never had it this bad
I can't get you out of my head

Out of my head
Oh I can't get you out of my head
Oh I
