You were in my head
Tried to turn; instead
Iâ€™m standing here

Gotta get this right
If it takes all night
Can you see it clear

Iâ€™m here right now
Time to show you how
Take a closer look
Iâ€™m here right now
Time to show you how
That was all it took

Was it all a dream
Sewn without a seam
Not a missing piece

Travel through the space
Share a common place
Never meant to cease

Iâ€™m here right now
Time to show you how
Take a closer look
Iâ€™m here right now
Time to show you how
That was all it took
