

# Do What I Can Do

[Alice Peacock](#)

I got up, I got dressed  
Said I'll do my best  
Said I'm up to the task  
Guess that's all you can ask But the question in my mind  
Am I living my life right?  
I do what I can do, what I can  
Not everything in life  
Goes according to my plan But you can look me in the eye  
And know that I will try  
I tell you that it's true  
I do what I can do Well I thought that by now  
I'd have it all figured out  
But that's love and that's life  
Every day's a surprise I'm not perfect by all means  
I'm just searching for that dream
