Bad Connection

Eulogies

I'll find my fear and I'll walk away from here, sober yah you'll see that i'm all awake and clear, It's a new day but if we may never soon come back, put aside the momories, in like a bad connection i want to fix, ill turn my live around to make our ends meets, hope you find me if i try to run away if olny i could look it in the face, ill find my heart and I'll cut away the strings, it wont be, could attach to everything ohhhh ohh, if olny i could lay it down to ends, in like a bad connnection i want to fix, ill turn my life around to make our ends meet, in like a bad connection i want to fix, ill turn my life around to make our ends meet, ill turn my around, ill turn my life around.
