Great Day for Skating

Satanic Surfers

When the weather is right
But the neighbor fills up the pool
Your parents make you leave
Your skateboard at home
You gotta walk all your way to school
And the sun shines like never beforeWhen you come home from school
You throw your homework in the closet
You grab your skateboard and walk out the door
ItMs pouring down, Hey man that does it!
When the sun doesn't shine anymore
And you can't skate like you could have beforeIt was a great day for skating
