Genetic Emancipation

Alexa Vega

Years, it's been so many years
Resenting the years and my heredity
Oh, I have hated and loved you
I have hidden behind you but I finally seeYou, I've mistaken for destiny
But the truth is my legacy is not up to my genes
True, though the imprint is deep in me
It will always be up to me, up to meOh, free at last
Oh, I'm free at last
(Free at last)
(Find your way, find your way)
