

Hurricane

The Relay Company

We've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"(MUSIC PLAYING.....)You feel the pressure build up on you
Waiting on what you'll do
Can't break down
The weather's never predictable
You've got to take take take controlWater is rising your life overflows (you go insane)
Your motive it keeps you afloat (inside your brain)
It's raining it's pouring disasters are forming (get under your skin)
Do all that you can to survive (inside your brain)We've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"We've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"So many reasons to turn around
Headwinds will slow you down
Can't look back
Cause Mother Nature is not your friend
You've got to break break break her offWater is rising your life overflows (you go insane)
Your motive it keeps you afloat (inside your brain)
It's raining it's pouring disasters are forming (get under your skin)
Do all that you can to survive (inside your brain)We've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"(MUSIC PLAYING.....)Now you're lost again
somewhere
Nowhere to be found
Your body's going numb
You drownWe've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"We've got to feel this hurricane
So pick it up and make it rain
We're lighting up this thunder storm
Everybody say "ya ya ya ya!"
