

# Disbeliever

## Hatesphere

Covered in skin  
Covered in sin  
It's all about reaching out  
And then begin, then begin  
To feel the shadows coming in  
It knows how to feed me  
And beat me  
It knows how, how to treat me  
And beat me  
Kept in a cage  
Enrage  
Looking through the bars  
The stars glitter in the night  
Glitters so bright  
It knows how to feed me  
And beat me  
It knows how, how to treat me  
And beat me
