

# Complicated

**Daniel Bedingfield**

How long can you hold out against me  
How long can you resist to kiss me  
Cause you know you want to  
You know I want to  
I know I want to  
You know you want to  
But you can't let this be  
The reason for a season of love  
You're so complicated  
And I can't figure you out  
You're just so complicated  
In every one of your ways  
As I've often stated  
Girl, I'm not messing you about  
You're just so complicated  
In everyone of your displays  
How long must I pretend to like you  
When it's so plain to see I love you  
Cause I want to have you  
I want to hold you  
I want to always be there for you  
So please don't be frightened  
By the strength with which  
I'm holding your heart

You're so complicated  
And I can't figure you out  
You're just so complicated  
In every one of your ways  
As I've often stated  
Girl, I'm not messing you about  
You're just so complicated  
In everyone of your displays  
You're so complicated  
And I can't figure you out  
You're just so complicated  
In every one of your ways  
As I've often stated  
Girl, I'm not messing you about

You're just so complicated  
In everyone of your displays  
You're so complicated  
And I can't figure you out  
You're just so complicated  
In every one of your ways  
As I've often stated  
Girl, I'm not messing you about  
You're just so complicated  
In everyone of your displays
