

Mein

Deftones

I've looked outside
But I've never wandered out

I'd like to pull you into me
Intercept you, in between
But I will never walk without, outside

That way
Outta the way
Stay away from you

I've looked inside
But I never wandered in

I'd like to pull you into me
Intercept you in between
But I will never wander in
Inside

That way
Outta the way
Stay away from you

Universe, breaking us down

That way
Outta the way
Stay away from you
That way
Outta my way
Stay away from you
You, you, you

Universe, breaking us down
