We'll Be Together (Single Remix)

Sandra

Days in blue and nights in fever
Fall in Chinatown
Flames and light, a silent fire
Not a single soundWho used to cry for love
Ooh, time an' time again
I used to cry for some love tonightAnd we'll be together
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll come my wayAnd this means forever
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll comeNight is cold and moon is flashin'
In a lonesome dance
I don't care 'cause you're beside me
I can take my chanceWho used to cry for love
Ohh, time an' time again
I used to cry for some love tonightAnd we'll be together
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll come my wayAnd this means forever
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll comeIt's like a wave
That touched my skin
And I'll let you stay
We'll be togetherAnd we'll be together
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll come my wayAnd this means forever
With a little luck, a little luck
We'll be comin' out of the dark
Say you will, say you'll comeAnd we'll be together
With a little luck, a little luck
We'll be comin' out of the dark
Say you will
