

# With Your Face to the Wind (Harriet's Song)

## Peter, Paul & Mary

With your face to the wind, I see you smilin' again  
Spirit's movin' within, I know that you're gonna win You've been down this road before  
Somethin' inside tells you what's in store  
Gotta remember what we're all here for  
You gotta eat up the apple and spit out the core With your face, with your face to the wind, I see you smilin'  
again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win, I know that you're gonna win With your face, with your face to the wind, I see  
you smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win You can get angry, you can curse  
You can shout it out in rhyme or verse  
And you can tell me that it's never been worse  
Then take that old sows ear and turn it into a purse With your face, with your face to the wind, I see you smilin'  
again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win, I know that you're gonna win There are gifts that come like the rain  
They make the plants grow, they drench you all the same  
And there are gifts that took you years to see  
Like the gift of the friend that you've been to me Yes there are hands here to comfort you  
And if you need there are tears to cry with you too  
And there are hearts that will sing with you  
And voices to cheer when you've finally made it through With your face, with your face to the wind, I see you  
smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win, I know that you're gonna win With your face, with your face to the wind, I see  
you smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win, I know that you're gonna win Sometimes it takes the dark to let us see the light  
You can't have that victory unless you've fought the fight  
Sometimes it takes a winding road to lead us home  
While you're windin' 'round my friend just don't go windin' 'round alone With your face to the wind, I see you  
smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win, I know that you're gonna win With your face, with your face to the wind, I see  
you smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within  
I know that you're gonna win With your face, with your face to the wind, I see you smilin' again  
I see you smilin' again, spirit's movin' within, spirit's movin' within

I know that you're gonna, I know that you're gonna  
I know that you're gonna win
