

# Torture

## The Cure

I'm in a room without a light  
A room without a view  
I'm here for one more treacherous night  
Another night with you It tortures me to move my hands  
To try to move at all  
And pulled my skin so tight it screams  
Screams and screams and pulls some more Hanging like this, like a vampire bat  
Hanging like this, standing on your back  
I'm helpless, I'm helpless again  
Oh, I'm helpless again My body is cut and broken  
It's shattered and sore  
My body is cut wide open  
I can't stand anymore It tortures me to move my hands  
To try to move at all  
And pulled my skin so tight it screams  
Screams and screams and screams for more Hanging like this, like a vampire bat  
Hanging like this, standing on your back  
Oh it's torture but I'm almost there  
It's torture but I'm almost there It's torture but I'm almost there  
It's torture but I'm almost there  
It's torture  
It's torture but I'm almost there
