

Master Key

Authentic Bros

Verse 1 This is it; I'm looking for the key
From the English Channel to the Black White sea
Trying to bring it back with a well intent beat
You wouldn't believe if you found this key
Though you would agree with its cure properties
Healing powers of keeping you sweet
Away from the grief, making you complete
The test of life without needing a cheat
No going off beat with receipt of deceit
Upsurge of lustre, reassurance of belief
One would've thought one would've found it by now
But the one's trying to fly even though one's on the ground
All for the key fountain of wish expound
Key to the door timeless treasure profound
Keep the faith; best believe joy will be found
This key is the key that leaves you astound (Chorus) The key to our dreams they unfold
From paradise to earth timeless treasure is joy
Fountain of the wishes get granted enjoy
Valley to compassion as fear is destroyed
Never ending joy Verse 2 I meditate about finding a key
It would open any door a master key
Can you actually foresee what I really see?
Devine key, barrier free, no one has ever seen
It's unique, gets you through every door in life
Based on your deeds and your activities
The better your heart then the more you receive
Can't be pretending acting perplexed
Without your deeds this key is worthless
It's got a meaning and a little purpose
Relax brother don't get too nervous
Gives you health wealth in stealth it's precious
Finest treasures timeless pleasures I felt so restless
Driven to the key feeling certain
This key is the key that leaves you breathless The key to our dreams they unfold
From paradise to earth timeless treasure is joy
Fountain of the wishes get granted enjoy
Valley to compassion as fear is destroyed
Never ending joy
Joy Joy Joy, The key to our dreams, the key to our dreams

Joy Joy Joy, The key to our dreams, the key to our dreams
The key to our dreams they unfold
From paradise to earth timeless treasure is joy
Fountain of the wishes get granted enjoy
Valley to compassion as fear is destroyed
Never ending joy
