

Same Old Blues

Night Horse

Morning rain keep on falling
Like the tears that fall from my eyes
 And as I sit in my room
 Staring out at the gloom
No, that's the rain in the same old blues

I can't help, I can't help but remember
Have the sun that would shine on my back door
 Now the sun turned to rain
 All my laughter turned to pain
No, that's the rain in the same old blues

Sunlight, lord I can still remember
Used to shine so sweetly on my back door
 Now the sun turned to rain
 And my laughter turned to pain
No, that's the rain in the same old blues
 Just the rain in the same old blues
